GO Biological Process enrichment: interaction genes
Annotated, testable nitrogen genes as background; GO terms of size 10-500
response to nutrient levels
response to extracellular stimulus
cellular response to decreased oxygen levels
cellular response to oxygen levels
response to decreased oxygen levels
response to oxygen levels
cellular response to hypoxia
response to hypoxia
carbohydrate biosynthetic process
secondary metabolic process
response to salt stress
response to oxidative stress
inorganic anion transport
detoxification
sulfur compound metabolic process
